Education

Indian Institute of Information Technology, Nagpur <i>Bachelor of Technology in Electronics and Communication Engineering</i>	July 2023 – Expected June 2027 CGPA: 8.15/10.0
Atomic Energy Central School, Rawatbhata <i>Central Board of Secondary Education (Class XII)</i>	July 2022 – July 2023 Percentage: 91.2%

Experience

CampusCart – Campus Marketplace Mobile Application <i>Full Stack Developer – Freelance Work</i>	Jan – March, 2026 <i>Remote</i>
- Collaborated on product design and feature prioritization, aligning development with student user needs and improving platform usability. - Structured 4+ independent microservices (Buy/Sell, Rent, Lost & Found, chat) with isolated PostgreSQL databases via Prisma ORM, improving service modularity and independent deployability. - Secured 10+ API endpoints using JWT authentication with refresh token rotation and Axios interceptors. - Reduced average image size by 60% via a Multer + Cloudinary upload pipeline with in-memory compression, supporting up to 4 images per listing. - Cut redundant API calls by 70% using Zustand global state with 5-minute stale cache invalidation, achieving sub-100ms UI transitions across 3 listing modules.	

Projects

MediMeet – Online Doctor Consultation Platform | *Next.js, Vonage, Redis, Prisma* | [Website](#) | [Github](#) 2025

- Launched a healthcare platform enabling **secure 1-on-1 video consultations** across **10+ medical specialties** via Vonage Video API with real-time call lifecycle management.
- Enforced **role-based access control** across **3 user roles** (Patient, Doctor, Admin) with protected routes and server-side authorization on all sensitive endpoints.
- Modeled **4+ relational Prisma ORM tables** (users, appointments, specialties, sessions) ensuring data consistency and referential integrity under concurrent load.

EmirateEstate – Real Estate Dashboard | *Next.js, MongoDB, NextAuth* | [Website](#) | [Github](#) 2025

- Developed a real estate dashboard with **NextAuth** authentication securing **6+ REST API endpoints** for property listings, saved properties, and user profile management.
- Enabled **advanced filtering** across **8+ property attributes** (price, location, type, size) with MongoDB query optimization, cutting filter response time by **40%**.
- Indexed **2 MongoDB collections** (properties, agencies) for efficient retrieval of **100+ listings** and reduced read latency under concurrent user requests.

Technical Skills

Languages: C++, JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, React Native, Next.js, Expo, Tailwind CSS, ShadCN UI, Zustand
Backend: Node.js, Express.js, REST API Design, JWT Authentication, Microservices Architecture, Multer
Databases & Cloud: PostgreSQL, MongoDB, MySQL, Prisma ORM, Redis, Cloudinary
Tools & Platforms: Git, GitHub, Postman, VS Code
Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Achievements

- Solved **350+ DSA problems** across LeetCode, Codeforces, and CodeChef, focusing on graphs, dynamic programming, and advanced data structures.
- 50+ SQL problems** solved on LeetCode and HackerRank covering joins, subqueries, and query optimization.
